TWO NEW VOLVO FH TRACTOR UNITS PROVIDE A COLOURFUL LAUNCH TO BOWKER TRANSPORT'S CENTENARY YEAR

W H Bowker, one of the oldest UK companies specialising in national and international logistics and now trading as Bowker Transport, has unveiled a new centenary livery on two new Volvo FH tractor units to provide the perfect start to a year of celebratory activities.

Supplied by Neil Crook, Customer Solutions Manager at Thomas Hardie Commercials Ltd, the two new FH-500 6x2 pusher axle tractor units are powered by Volvo's D13K engine rated at 500hp. The 3,900mm wheelbase chassis come with front steel and rear air suspension, in addition to high specification Globetrotter Cabs, I-Shift automated 12-speed gearboxes and RSS1356 drive axles with a ratio of 2.50:1.

Established in 1919, Bowker's are celebrating their centenary with Cobalt blue-painted FH Globetrotter cabs to replicate the vintage blue, red and gold colour scheme used by the company in previous years and each sport unique cherished registration plates.

The new FH duo are also equipped with Volvo's unique Dynamic Steering and I-See Predictive Cruise Control systems. Inside the drivers benefit from Drive Plus and Single Bed living packages, plus Volvo's optional 33-litre under-bunk refrigerators, whilst full leather trims adorn the vehicles' seats and steering wheels. Alcoa Dura-Bright EVO alloy wheels are also fitted to both trucks.
